	APPROVAL OF STATE ENGINEER	
	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the owing limitations and conditions: This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temp allowance and that the final water right obtained under this permit will be depe upon the amount of water actually placed to beneficial use. It is also understo that this right must allow for a reasonable lowering of the static water level a permittee's well due to other ground water development in the area. A substanti weir or other type of measuring device must be installed and measurements of wat use kept. The well shall be equipped with a 2-inch opening for measuring depth water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein gran at any and all times.	endent ood it ial cer to
	No perforations shall be put in the production casing from ground level to	100
	feet	n
	public, private or corporate lands.	
•••••
